

planning modern bathrooms

in **COLOR**

by **AMERICAN-Standard**

T'ang Red and Tourmaline Green are available in vitreous china only.

planning personality into your bathroom...

The era of stark, lifeless bathrooms is quickly disappearing. In its wake is an exciting trend toward colorful, interesting bathroom design. Today, style-conscious homeowners insist on planning their own bathrooms as they do the other rooms in the home...they are proud to "leave the bathroom door open."

What goes into a "comfortable" bathroom? Fixtures, of course. They must be "right" in color, size, convenience and style—those features which will contribute so much to the comfort of your bathroom. By attractively planning other elements around the fixtures, your own bathroom design will materialize right before your eyes.

Selecting the right fixtures presents no problems because American-Standard fixtures are available in many different colors and styles. Three exciting new shades—Regency Blue, Manchu Yellow and Tourmaline Green—have been added to the five already popular colors of Persian Brown, Platinum Gray, T'ang Red, Ming Green and Corallin. There is a color here to suit any taste. The

variations of color combinations that can be developed around any one of these "lifetime" colors are limitless...no matter how small your budget.

There are other elements to be considered, such as accessories, design, convenience, light — just to mention a few. Even if you have an architect or decorator, this booklet will help put your ideas together...help you plan a bathroom with personality — atmosphere — sparkle. You will discover it to be an exciting and gratifying experience. With this thought **PLANNING MODERN BATHROOMS IN COLOR** has been prepared for you.

Joseph P. Gaugler and Faber Birren, leading American color consultants, developed the three new colors—Regency Blue, Manchu Yellow and Tourmaline Green — that give you this range of colors by American-Standard.

AMERICAN-Standard PLUMBING AND HEATING DIVISION

AMERICAN RADIATOR & STANDARD SANITARY CORPORATION

40 WEST 40TH STREET • NEW YORK 18, NEW YORK

fashioned in color...with a flair for elegance

The Neo-Angle Bathtub...a conventional size bathtub in a 4' by 4' area. The Neo-Angle bathtub offers added convenience and safety in corner seats, low sides and flat bottom. Available in any one of six lustrous American-Standard colors and white.

Arlene Lavatory F 143-24

Neo-Angle Bathtub P 2115-21

Compact Toilet F 2050-1

...the beauty and convenience of twin lavatories

Bathroom "traffic" will no longer be a problem with twin lavatories in your new or remodeled bathroom. Notice how the long mirror and soft Corallin lavatories . . . with roomy shelves for toiletries . . . combine to make a spacious "wash-up, make-up" area. An extra-long corner tub — 5½ feet — and the quiet-action one-piece toilet, in its own recess, give you built-in comfort, convenience, color harmony.

Master Pembroke Bathtub P 2207-21

Companion Lavatories F 102-24

Master One-Piece Toilet F 2000-1

The Master Pembroke Bathtub . . . Quality, comfort and beauty are the "highlights" of this cast iron corner bathtub. The wide bathing space and flat bottom are features of this model, too. And the extra length of a 5½ foot tub gives more "stretch-out" room.

The Symphony Lavatory
...Spacious luxury in genuine vitreous china. Measuring a generous 36" by 22", this lavatory offers a wide counter surface . . . ideal for toiletries and cosmetics. Exquisite Mono-gram fittings with Ruby handles accent the beauty of this fixture.

Symphony Lavatory F 90-24

Master Pembroke Bathtub P 2227-21

Compact Toilet F 2050-1

for lasting appeal — clean, simple design . . .

To have a bathroom as modern tomorrow as it is today, select basic colors and "neat" accessories. Notice the bathroom shown above. The Regency Blue fixtures are made more beautiful by the soft pattern of the wallpaper. The dignified lines of the lavatory and tub further add richness and elegance. A simple opaque plastic partition gives an air of privacy to the quiet toilet.

Comrade Lavatory F 121-21

Master Pembroke Bathtub P 2225-11

Neo-Health Toilet F 2024-1

for a mellow mood — plan around soft Persian Brown . . .

Brown is another color that offers endless opportunities for changing color schemes. Here, the deep-toned wood panelling, contrasting light tile and subtle Persian Brown fixtures all complement one another. And notice how the attractive spatter pattern floor tile adds a contrasting lightness making a bathroom that is truly different.

The Neo-Health Toilet . . . This attractive vitreous china toilet introduces a new concept of personal cleanliness. Just a touch of the lever releases a gentle cleansing stream of water from a separate compartment in the tank. Not a second toilet in the bathroom . . . but a new toilet for complete personal cleanliness.

modern fixtures suggest "a touch of tomorrow"...

Plan your new or remodeled bathroom so that it will stay new for years. By selecting these modern fixtures—completely new in design—you can change the accessories as often as you like and have a "new" room each time. Notice how accessories—the bright rug, striped shower curtain and matching seat—accent the Ming Green fixtures to give this bathroom that "always fresh" look of tomorrow. *The tub and lavatory were styled by Walter Dorwin Teague, nationally known industrial designer.*

Compact Toilet F 2050-1

Buckingham Bathtub P 2015-21

Parliament Lavatory F 93-24

The Buckingham Bathtub... New...different...long clean lines accent its simple beauty. And this rugged cast iron bathtub is practical. The attractive step-down rim seat design is a step up to safety... means "step-in, step-out" ease. The Buckingham is gracefully styled to suit any bathroom décor.

Roxbury Lavatory F 150-21

Restal Receptor Bathtub P 2120-11

Cadet Toilet F 2112-1

there is room for that "full" second bath . . .

And the Restal makes it possible. Especially designed to fit in shower stall space, this tub provides plenty of room for both baths and showers . . . is ideal for small bathroom installations. In the illustration above, the Restal is a "perfect fit," enabling children to be bathed easily and safely. Durable fixtures in Platinum Gray offer you practical bathroom beauty.

The Restal Receptor Bathtub . . . Attractively styled in rigid cast iron, the Restal measures only 38" x 39". A corner seat, low 12" sides and flat bottom make it ideal for showers, bathing children and foot baths. The Restal helps you have that most-important second bath.

One-Piece Toilet F 2005-1

Dresslyn Lavatory Dressing Table F 127-14

Your guests will be sure to compliment you on the beauty and convenience of this powder room. In rich T'ang Red, this cabinet lavatory and low one-piece toilet contribute to the spacious storage areas here. Notice how the wall paneling and striped towel accent the fixture colors, too.

powder room convenience... for family and friends

Here's a good way to build in hospitality for your guests and convenience for your family at the same time. A powder room... with ample storage space.

Recessed shelves, the large mirrored medicine cabinet and the shelf back lavatory in the illustration below provide space galore for toiletries, cosmetics, handbags, etc. Striking describes the lovely effect created by these features with the deep Tourmaline Green fixtures. They can be installed in an area as small as 3'x5'—under a staircase or in a large closet.

Companion Lavatory F 102-24

Compact Toilet F 2050-1

Dresslyn Lavatory-Dressing Table F 127-14
with Monogram fittings.

Master Pembroke Bathtub P 2212-21

for beauty and convenience— build in the lavatory

The problem of small top surface areas and lack of storage space in the bathroom is quickly solved by installing the lavatory in a cabinet or counter. There is no limit to the number of materials and color combinations that can be used to make the lavatory-cabinet eye-catching as well as practical. Built-in lavatories are easy to keep clean, too. Whether you prefer a cabinet unit or a counter-top installation, American-Standard has a complete selection of styles and colors designed specifically to add to the beauty and convenience of your bathroom.

Notice how the cabinet lavatory unit adds both beauty and storage space to the bathroom at the left. Set off by an extra long mirror and small contrasting tile, it is the focal point of this bathroom.

Highlyn P 3001-15

Designed especially for the ladies who prefer the dressing table feature, this practical lavatory-cabinet combination is available with a recessed front for added comfort...distinctive appearance.

The Dresslyn . . . Here is an exciting china lavatory that is truly different. The graceful exposed front means more style—more elegance—more color—in

your bathroom. It's ideal for custom installations . . . features a wide deep bowl and cast-in soap dishes for extra convenience. Model No. F 127-11.

The Highlyn . . . Constructed of durable cast-iron, this lavatory makes a neat, practical counter top installation. Features two convenient cast-in soap dishes and hidden front overflow. Model No. P 3001-11.

The Merrilyn . . . An expansive 28" x 20", the Merrilyn has an extra large bowl for more comfort. Especially designed for custom installation, this vitreous china lavatory adds elegance and sparkle to any bathroom. Model No. F 140-11.

cabinets and counters—
for built-in beauty

The Arlene . . . An easy-to-clean sloped fitting panel makes this vitreous china lavatory truly distinctive . . . easy to use. A large 24" x 20", the Arlene features a wide deep bowl . . . adds a modern touch to your bathroom. Model No. F 143-24.

color planning is easy...fascinating

...and this new, easy-to-use American-Standard color service makes it that way. The following pages show sixteen original color schemes specially prepared for you by Miss Lee Childress, a nationally known color consultant. Each scheme has been developed around an American-Standard Lifetime Color. Appropriate colors for walls, tile, floor coverings, towels, shower curtains and accents have been selected with discrimination to make each scheme tastefully correct and attractive. Each scheme is arranged to make it easier for you to visualize what your new or redecorated bathroom will look like. You will even find the name of the manufacturer, color and pattern of all materials shown.

Whether you are building a new house, adding a bathroom or remodeling your present one this service has something for you. Even in something as simple as buying new towels or shower curtains, these color schemes offer many helpful ideas. With this assistance in color planning your bathroom, you will achieve "professional" results that you will want to "show off" to your friends and guests . . . and you'll have fun doing it, too.

planning for that extra bathroom...

5'x6' is all the space you need for a full bathroom. This space may be an alcove, a storage room, back-to-back closets, the end of a hall or under a staircase. By quickly figuring the over-all dimensions of your available floor space, you can determine, from the chart in the back of this book, just what fixtures are the right size for your new bathroom.

Here is a full bathroom with ample storage space installed at the end of a hall. This area measures only 5' x 6' and includes a Restal Receptor Bath, a Marledge lavatory and Cadet toilet.

Cadet Toilet F 2112-1
Marledge Lavatory F 305-21
Restal Receptor Bath P 2125-11

Under the stairs is an excellent spot for that powder room. By using a Viking lavatory and Compact toilet you can make this installation in a space only 3' x 5' and still have room for accessories.

Viking Lavatory F 385-11
Compact Toilet F 2055-1

Extra room for toilet articles... a dashboard type cabinet with sliding doors over the lavatory puts toilet articles within handy reach.

how to add charm and convenience to your bathroom...

There are many simple economical ideas that can be used to give that new look... and add convenience when remodeling your bathroom. Perhaps one or more of these suggestions can be worked into your bathroom plans easily. Also notice how the attractive patterns and colors of floors and walls can add style and interest to a bathroom.

Put soap and towels within reach... a recessed soap dish at both bath and shower levels eliminates bending and fumbling—combination grab and towel bars add safety and convenience.

Use that unused space... compact cabinets built around your lavatory give extra storage area—hinged doors for counter space—ventilated hamper and ample drying facilities.

full length—full light...make this mirror a welcome addition to any bathroom. Built-in seat facilitates dressing and doubles as a storage area for cleaning materials, shower slippers, etc.

built-in laundry hamper...a feature housewives bless many times over. The large medicine cabinet is easily accessible from both sides of the counter, too.

decorative towel holders...and other accessories accent the décor of your bathroom. This is an excellent way to put the finishing touch to a luxurious bathroom.

shelves with style...are ideal for double lavatory bathrooms. These back-to-back shelves and mirrors offer more personal bathroom convenience for two people.

decorative tiles...mean distinctive, colorful bathrooms. They can add exciting design to solid color walls...make bathroom cleaning easy.

New Companion—vitreous china front overflow—anti-splash rim—wide shelf back ledge—cast-in soap dishes. Model No. F 102-21

an **AMERICAN-Standard** lavatory for any bathroom...any décor

Whether it is genuine vitreous china or durable cast iron an American-Standard lavatory meets the highest service requirements. Sparkling glass-like surfaces give lasting beauty and are easy to clean. Select your lavatory from a complete range of sizes and styles.

Dentalodge—vitreous china dental lavatory—flushing rim—built-in backflow preventor. Model No. F 572-11

Marledge—vitreous china—shelf back—cast-in soap dishes. Model No. F 305-21

Hexagon—cast iron—acid-resisting or regular enamel—cast-in soap dish. Model No. P 3859-21

Ledgewood—cast iron—acid-resisting or regular enamel—cast-in soap dish in shelf. Model No. P 4105-21

Trimledge—vitreous china—shelf back—anti-splash rim—cast-in soap dish. Model No. F 301-21

Decledge—vitreous china—shelf back—anti-splash rim—cast-in soap dishes. Model No. F 331-11

quality toilets offer newest design . . .
reliable performance . . . lasting beauty

American-Standard toilets are made of the finest vitreous china. There is a style available to suit every taste in any one of eight sparkling colors. Quiet, dependable and easy to clean, an American-Standard toilet will give many years of efficient service.

Master One-Piece—elongated bowl—siphon vortex flushing action—one-piece tank and bowl combination with seat—free standing. Model No. F 2000-1. (Round front bowl. Model No. F 2005-1)

New Compact—elongated bowl—siphon jet flushing action—close-coupled combination with seat—extended rear shelf. Model No. F 2050-1. (Round front bowl. Model No. F 2055-1)

New Cadet—siphon jet flushing action—close-coupled combination with seat—extended rear shelf. Model No. F 2112-1

New Compton—siphon washdown flushing action—close-coupled combination with seat—extended rear shelf. Model No. F 2116

The Norwall . . . New exclusive residential wall-hanging toilet makes floor and fixture cleaning easy . . . no more awkward reaching on hands and knees. Contour seat has snap-off cover for thorough cleaning. Quiet flushing action makes the Norwall a truly practical selection. Model No. F 2090-1

Neo-Health—elongated bowl—siphon jet flushing action—close-coupled combination with seat—posture rim—built-in spray for personal cleansing. Model No. F 2024-1

Monogram spread lavatory fitting with pop-up drain R 2111

Monogram built-in lavatory fitting with pop-up drain

Monogram bath fitting with diverter spout R 1011. Pop-up drain R 1700-1

Monogram Fittings—personally yours...

For modern trends in personalized accessories, American-Standard offers the exquisite Monogram fittings. Styled in satin chrome finish with beautiful, firm-grip translucent handles, Monogram fittings will add individuality to your new bathroom.

Quality Fittings—simplicity of design...

Clean, natural lines make Quality fittings so versatile they will complement any bathroom color scheme. Finished in gleaming Chromard with smooth-working, easy-to-grip handles, Quality fittings are designed to give that "always new" look.

Quality spread lavatory fitting with pop-up drain R 2101

... accent colors for your bathroom

Just imagine the distinctive appearance your bathroom will have by adding rich, translucent faucet handles in vivid color. Available in five exquisite shades and clear, these easy-to-grip handles are designed to complement American-Standard fixtures in color. Snap-in buttons monogrammed with your own initials in either block or script letter style, add a final note of individuality.

for continuity of style— matching accessories

For an extra touch of elegance in your new or re-modeled bathroom, graceful legs and towel bars will do the trick effectively and economically. Their clean simple design adds more beauty and style... and these accessories are practical, too. The lavatory legs are easily adjusted to just the right height—from 30" to 32½"—and they give extra strong support. The trim towel bars, installed within easy reach of wet hands, give an illusion of wider, more modern lavatory design. American-Standard legs and towel bars are finished in satin or polished Chromard to match either Monogram or Quality fittings.

For maximum bathing utility and convenience, install a modern American-Standard shower head in either satin or polished Chromard. Each features a spray adjustor stem for fine or heavy flow. Smooth ball joints aid in angling the spray at a touch. And they are made of heavy non-corrosive, non-rusting brass for years of service.

COLOR: All sinks are acid resisting enamel on cast-iron—available in all colors except Tourmaline Green and T'ang Red.

8 easy ways to pay for your new **AMERICAN-Standard** bathroom

To make financing your new **AMERICAN-Standard** Bathroom as easy as possible, here are 8 ways of paying which you might consider.

1. The Bank—With the necessary security in property, insurance or stocks and bonds, you may arrange a low interest loan through your own bank.

2. Refinanced Mortgage—Often a home owner who has some of his mortgage paid can refinance through the same mortgager.

3. Open-End Mortgage With No Increase in Payment—Perhaps, if enough of your mortgage is paid, you can borrow the cost of your new bathroom and add it to your mortgage by increasing the number of payments.

4. Open-End Mortgage With No Increase in Time—Another possibility is to increase the amount of each payment on your mortgage without increasing the time.

5. F.H.A.—You could take advantage of the National Housing Act, which insures private lending institutions against loss on loans for property repair and improvements, and borrow from a local financing institute.

6. Time-Payment Plan—If you have good credit and the ability to pay, you may want to arrange time payment financing through your dealer, bank or a finance company.

7. Step-by-Step Modernizing—You might prefer to remodel your bathroom a step at a time, paying cash as you go.

8. New Mortgage—If you're buying a home that isn't complete, or building a new one, simply include the cost of your American-Standard Bathroom on your original mortgage.

... see your **AMERICAN-Standard** retailer

Before you build, buy or remodel, see your American-Standard retailer who sells, installs and services. He will be glad to show you the complete line of American-

Standard quality products and help you select those that best fit your plans and needs. For his name and number, look in the Yellow pages of your phone directory.
